Re: Final Multimedia Project

One critical expectation of Multimedia 1 is that each student demonstrates the skills and knowledge acquired. Because of this, the culmination of the course is a professional educational interactive multimedia project that combines many of the skills and knowledge learned. **The final project is worth 50% of the semester grade. The projects are not complicated, but are required to pass the class.**

Following, please find an outline of Deliverables and Project Requirements for the final project. Check the class calendar for specific due dates.
